

Sensor Systems

SummerSchool 2019

Sensor Systems – “Sense the World!” – August 26 to 30, 2019

Where? Infineon Technologies Austria AG – Villach, Carinthia (Austria)

What?

- › Unparalleled insights into the world of Infineon sensors - covering automotive, magnetic and consumer sensors
- › Apply your newly gained knowledge at a “Hackathon-Light”, where you can show your skills and solve tasks with hardware kits provided by Infineon
- › Practice & theory with top experts from Infineon and world-class professors
- › Boost your career: Network and find topics for BSc-, MSc- and PhD-theses, internships or even a job for after you graduate
- › PhD Pitches: Pitch your research topic to peers, industry experts and professors

Who?

- › BSc, MSc and PhD students enrolled at an European university within the field of Physics, Chemistry, Process Engineering, Electrical Engineering, Materials Science, Mathematics, Data Science, Statistics, Computer Science, Business Informatics, Telematics, Communication- and Network-Technology or similar

Application deadline: June 16, 2019 (Attention: limited number of participants)

Highlights?

- › World-class speakers, “Hackathon-Light” with hardware provided by Infineon, Networking between students and Infineon experts, Lab tours & PhD Pitches, Social activities
